

General meeting 10/05/20

Do we email in all languages?

We judge it based on organisation if we want to add (correspond in x-language)

Allow people to change email draft or have a fixed one?

We'll allow people to tailor to suit their needs/organisation

We won't send resources first time round – we'll send them a link to resources page (Gideon's setting up)

What resources should we list?

- Powerpoints/webinars
- Draw my life/animation video (check who can)
- Curriculum

We can offer speakers, webinar sessions, discussion groups etc.

Offer a broad intro, then send the list in a response email

We need to prepare a draft for a second email

What do we tell them in second email?

- List of resources above
- We can offer workshops
- Curriculum

Discussion of decision-making

- What percentage needed to pass?
- Benjamin/ Rae/Paula: 2/3
- 50% Virginia
- Guiding principle: we are aiming for a consensus
- Depends on what's being voted on
- Paula: Approval decisions (ie. Polls) slow us down
- Hannah: Decisions specific to WG (they have the final say) whereas on large meetings we need a majority

Projects

- Gideon: unless its relevant to the whole organisation, creating individual projects is a liberty we should have (as long as it doesn't bring WW into disrepute)
- What amount of the electorate needs to be present for a GM?
- Benjamin: its your responsibility to be at the GM if you want to vote
- Gideon: we publish an agenda before a meeting to allow people to share their thoughts/votes.

- Gideon: we set up a certain % of the vote that can pass decisions so that only a few people don't take decisions for the whole organisation
- Fatima: two calls per day?

When should we make the call to decide about decision-making? Gideon will put out a vote on the Slack.
